ABOUT US

We are a well-established company with a strong infrastructural set up. Our Manufacturing plant is fully equipped with the latest machinery. Our asset is our team of highly adequate and technically qualified professionals, who work in close association with our customers and provide them with liable solutions. We at Lento are always ready for constant improvement and innovation of new products to meet the demand of the market. Ever since commencement of business, the only objective that our organization is to develop quality batteries, which are being used in the market. In our quest for excellence, we have streamlined our processes in a way that enables us to manufacture products that match our clients needs. Our products have been manufactured under the supervision and expert guidance of techno crafts, electronic engineers and experts who are masters in their field. Each of our product bears a mark of quality and are high in performance. They can easily withstand wide electricity variations and have high voltage frequencies.

MANUFACTURING UNIT

We are supported by a well-established manufacturing unit wherein we manufacture the entire range of batteries using advanced machines. Moreover, we keep the unit updated as per the latest market developments.

TEAM WORK

We believe that our team is our strength. We are empowered with young and dynamic professionals, who are keen towards meeting the set organizational goals. Moreover our team members combine experience, reliability, knowledge, and passion so as to create superior quality products for worldwide market.

WORLDWIDE REACH

We have a wide distribution network that assists us in reaching any destination across the globe with ease. Our major markets are India, Nepal, Bangladesh, Bhutan, Myanmar, Sri Lanka, UAE, Iraq, Jordan, Yamen, Oman, Jordan, Saudi Arabia, etc. Also we ensure on-time and safe delivery.

MAINTENANCE FREE AUTOMOTIVE BATTERIES

We at making high quality automotive battery using CaPb+ American technology. With advanced calcium Lead Silver alloy, our MF series keep consistent with JIS and DIN Standards with super cranking power which ensure dependable Start in cold Weather, excellent corrosion-resistance performance in high temperature Condition and great vibration resistance. These batteries are made for those who strive for high Performance, faster charge acceptance, lower internal Resistance and negligible self discharge. It is highly Suited for cars, Tractors and other commercial vehicles.

SILVER INSIDE
ZERO MAINTENANCE
AMERICAN TECHNOLOGY

KEY FEATURES

- Ultra Low self discharge.
- High Cranking power irrespective of climate change.
- Calcium Lead Silver Alloy using American Technology
- Long Life with zero maintenance
- Faster charge acceptance • Superior performance with high vibration resistant
- Leakproof design with easy fit

APPLICATION

- Starting of Cars
- Heavy Duty Commercial Vehicles
- Trucks and Tractors
- Marine and Diesel engines
- Power Generators

Marketed By : LENTO INDUSTRIES PVT. LTD.
